Professional Experience

UI/UX Designer Intern, Sewaverse

09/2025 – 01/2026

- Worked on the “**Hire Sewa Provider**” feature, focusing on end-to-end user flow and service hiring experience
- Designed UI flows for multiple service delivery modes:
 - **On-Site Service:** Online payment or Cash on Delivery (COD) with instant hiring confirmation and chat access
 - **Service Provider’s Place:** Displayed provider location with immediate confirmation and chat option
 - **Online Service:** Hiring request flow with real-time chat and payment-based confirmation
- Designed payment logic handling:
 - Advance payment (deposit) and post-payment flow
 - Wallet payments and COD scenarios
 - Pending and confirmed hiring states based on payment status
- Collaborated with the product team to improve clarity, usability, and real-world service booking logic

Technologies Used: Figma, Material UI, Excalidraw Whiteboard

Projects

Chatgpt Clone

- Redesigned a modern interface including landing page, login/signup model and chat screen
- Emphasized clean layout, dark mode UI and consistent user flow
- **Technologies Used:** Figma
